DETAILED ACTION

On December 8, 2006, an Office Action was sent to the Applicant rejecting claims 1-29. On March 8, 2007, the Applicant responded with arguments.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 1-29 are rejected under 35 U.S.C. 103(a) as being unpatentable over Delfer (5,496,991) in view of Pintsov (5,586,036).

Delfer discloses the invention substantially as claimed, as set forth in the Office Action mailed on April 26, 2005); however, Delfer does not disclose scanning by the post the code on the mail piece before the mail piece is delivered to the creditor. Pintoov teaches a postage payment system whereby the post may scan the mailpiece and an a payment may be made by electronic funds transfer (col.8, lines 25-40). It would have been obvious to one having ordinary skill in the art at the time the invention

was made to incorporate the teachings of Pintsov with the disclosure of Delfer, in order to demonstrate that an alternative source may scan the mailpiece to create the electronic funds transfer for the bill payment.

Response to Arguments

Applicant's arguments with respect to claims 1-29 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lalita M. Hamilton whose telephone number is (571) 272-6743. The examiner can normally be reached on Tuesday-Thursday (6:30-2:30).
